were sold today by William Nance, 1.10 1124 Charles Anderson and Charles Enquist to Robert E. Connolly, repre senting a syndicate of San Francisco and eastern newspapermen who are eager to get into the mining game and are anxious to be identified with the Divide district. The members include leading writers and business office attaches of the San Francisco. Chicago and New York newspapers and it would not be amiss to incorporate as the Publicity group for the reason that every man connected with the outfit is actively engaged in publicity work

The two groups embrace four claims adjoining the Rosetta on the north and the Gold Wedge Home stake group. The sale was negotiated by Dr Elftman with R L rtol burn representing the Connolly in-

# HENNESSY DIVIDE

The Hennessy Divide Mining company has been fully organized with the following officers and directors W A Bradley, general manager of the Pittsburg Silver Peak Mining company, president; A. G. Raycraft, cashler of the First National bank, secretary-treasurer; E. R. Bennett, professor of the To nopali school of mines, vice-president; Miss Agnes Cordingly and F. H. Bruce, directors. The company is capitalized for 1,000,000 shares, 500,000 in the treasury. The company owns three claims, the St Patrick St. Ignatius and Elberta. tate and east of the Divide Mining company. Work was started two weeks ago and it is expected that the full electric plant, consisting of a three-drill compressor and electric hoist capable of sinking to a depth of 500 feet, will be in full operation about the first of April Sinking a standard 414 by 7 shaft commenced several days ago and a depth of 30 feet will have been reached by the time the hoist is ready for operation.

The ground is traversed by strong ledge which will be cut on its dip at a depth of about 60 feet. A fair sample taken for a considerable area of the surface croppings gave returns of \$6 per ton and as will be this section of the ledge that will be cut in the shaft the possibilities of commercial ore at that point are favorable.

The treasury of the company has been financed in a quiet way, suberiptions having come from San Francisco, Reno and New York as Divide starts life under the most favorable conditions in every way and has been favorably mentioned by every engineer who has inspected the ground.

Stock certificates printed and bound on short notice at this office.
